

The subject of evil robots

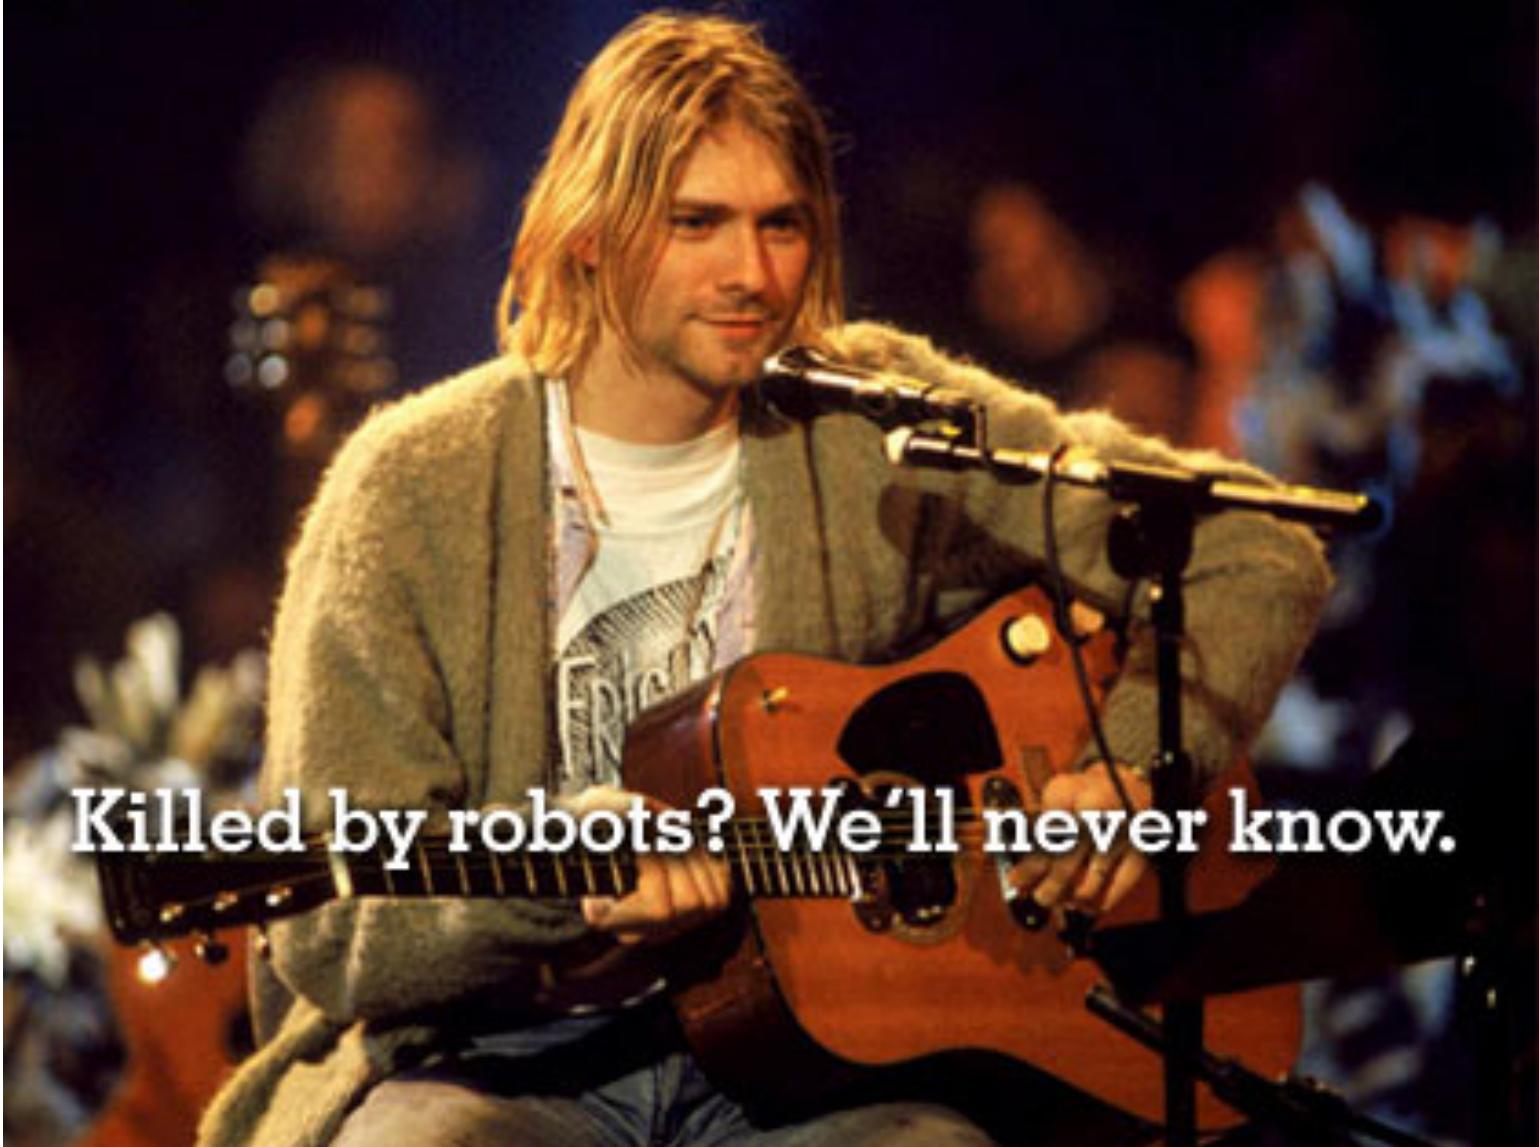

One is probably listening now.

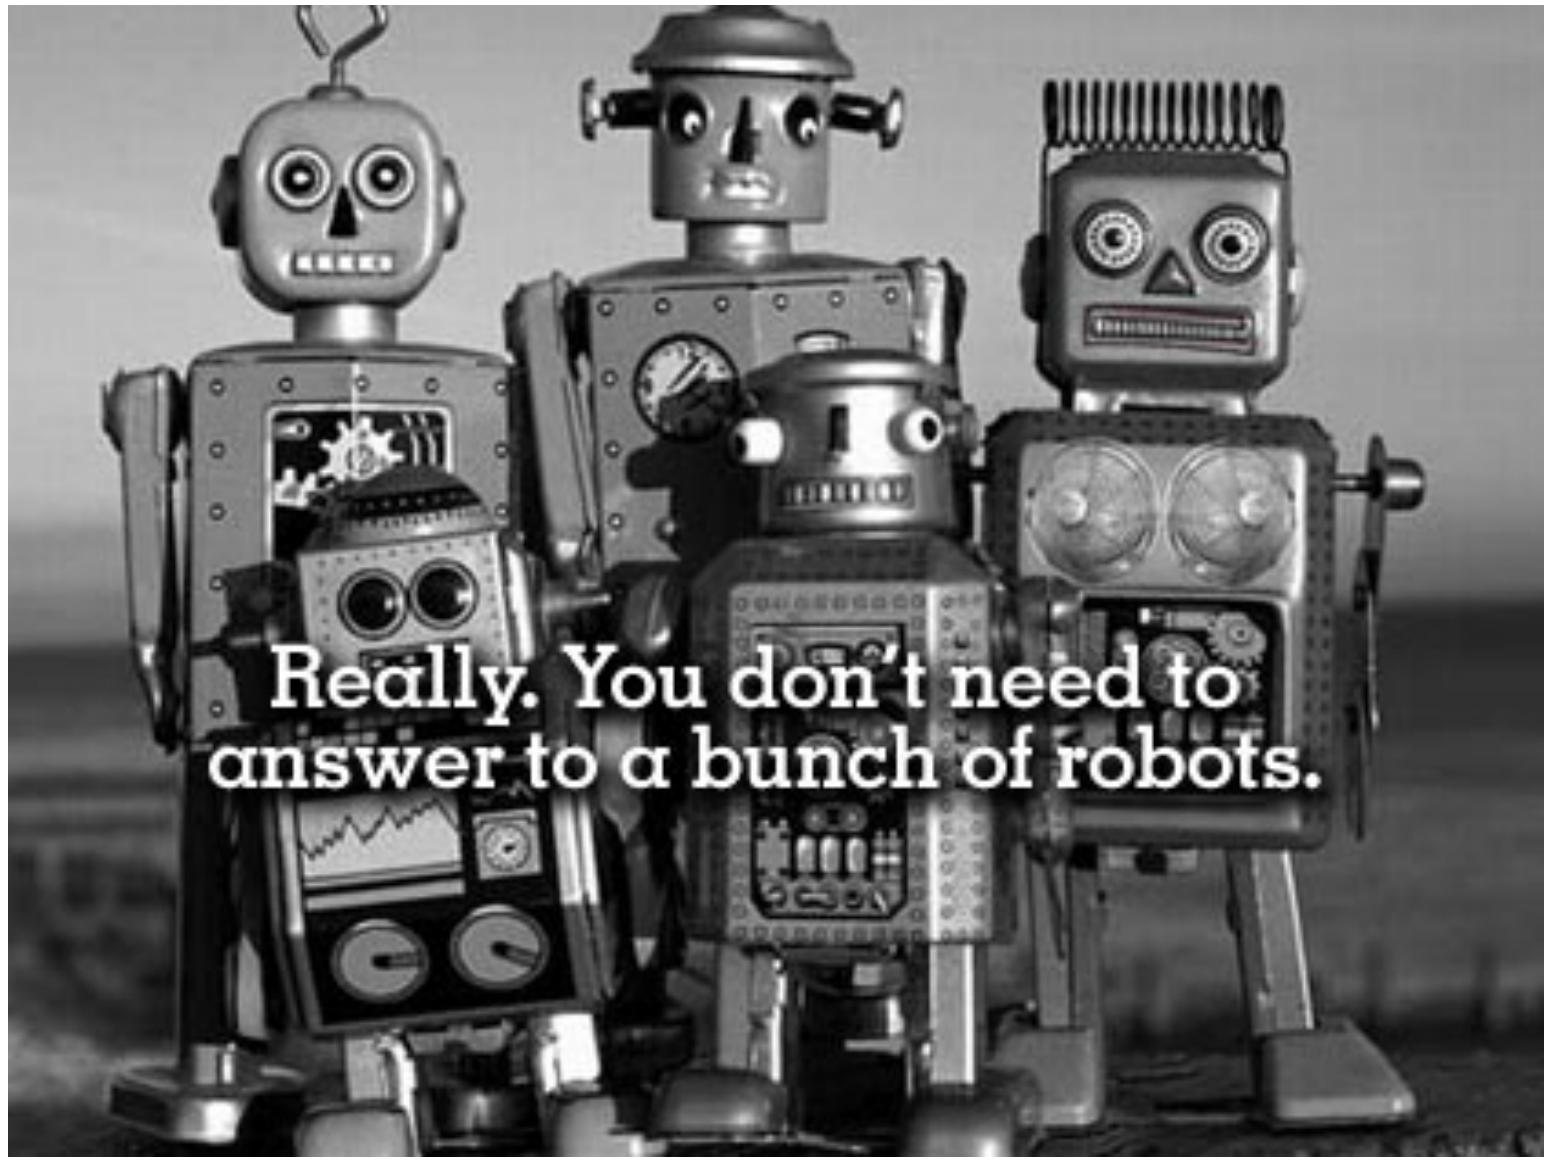

I swear this is about dog agility.

A photograph of Kurt Cobain, the lead singer of Nirvana. He is shown from the waist up, wearing a light-colored cardigan over a white t-shirt with the word "FREEDOM" printed on it. He has his signature long, messy hair. He is holding an acoustic guitar and singing into a microphone. The background is dark with some stage lights visible.

Killed by robots? We'll never know.

A black and white photograph of three vintage-style robots standing in a row. The robot on the left has a rounded head with two large circular eyes and a small mouth. It has a rectangular body with a gear-like pattern on its side, two small circular sensors on its chest, and a control panel with a line graph and two circular buttons at the bottom. The middle robot has a more angular, metallic head with two large circular eyes and a small mouth. It has a rectangular body with a circular gauge on its left side, a small circular sensor on its chest, and a control panel with four buttons at the bottom. The robot on the right has a rectangular head with two large circular eyes and a small mouth. It has a rectangular body with a grid of small circles on its side, two circular sensors on its chest, and a control panel with four buttons at the bottom. All three robots have simple, articulated legs.

**Really. You don't need to
answer to a bunch of robots.**

Actual robot surveillance footage

A photograph of a woman walking in a park-like setting. She is wearing a purple long-sleeved shirt, grey pants, and a white cap. She is walking away from the camera, towards the right side of the frame. In the center-left, there is a very large, dark brown tree trunk. To the left of the trunk, there is a white picket fence. The background is filled with green trees and bushes. The lighting suggests it is a sunny day.

Only do this with trees.

**What
would
Hi Ho
Silver
do?**

**Silver don't
talk smack.**

.COSTCO
WHOLESALE

Otterpop is brave.

Tattoos are great places to
write down your code words.

Totally did not help the cause.

Actual footage of
a robot sucking
Joy out of her foot.
She thought he
was just giving
her a foot massage.
Beware the foot
massage, beware
the robots. They
could suck your
joy out and all
you get is some
fancy toenails.

Otterpop would
like to kick some
serious robot ass
but the Dalai Lama
has asked her to deal
with less hatred in
her heart. Hell YEAH.

Gustavo is an
inspiration to me
in dealing with
robots except
sometimes he
tries to climb in
their mouths.

A black dog with a white patch on its chest stands in a field of small white flowers. It wears a dark harness. In the background, there are green hills and a blue sky with scattered clouds.

Ruby uses crafty
shrewdness to
elude the robots.
Then she hides
in the bushes and
plans her getaway.

A woman with long blonde hair and glasses, wearing a brown hoodie and blue jeans, is crouching down and holding a white iRobot Roomba robot vacuum cleaner. She is looking directly at the camera with a neutral expression. The background shows a light-colored wooden wall.

Friendly robot. Not evil.
